

GOPICA A

Full Stack Developer

Bengaluru, Karnataka | +91 8220131300 | gopica141@gmail.com | linkedin.com/in/GopicaA | github.com/gopica141-svg

PROFESSIONAL SUMMARY

Entry-level Full Stack Developer with hands-on experience in MERN stack development (MongoDB, Express.js, React.js, Node.js) gained through three internships and multiple end-to-end projects. Skilled in building responsive web applications, RESTful APIs, and scalable database designs. Strong problem-solving ability, fast learner, and effective collaborator in agile team environments. Seeking a Software Developer / Full Stack Developer role to apply technical skills and contribute to real-world products.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Web Design

Backend & Database: Node.js, Express.js, MongoDB, FastAPI, SQL, RESTful API Development

Programming Languages: Core Java, JavaScript, Python

Developer Tools: Git, GitHub, Postman, VS Code, Vercel, Render

Core Concepts: Functional Components, Props, State Management, Redux, React Hooks, MVC Architecture

Soft Skills: Problem-Solving, Team Collaboration, Adaptability, Rapid Onboarding, Communication, Time Management

INTERNSHIP & INDUSTRIAL TRAINING EXPERIENCE

Full Stack Development Intern — Global Quest Technologies

Jan 2026 – Apr 2026

- Developed and maintained frontend and backend modules using React.js, JavaScript, and Node.js for scalable web applications.
- Improved application performance and resolved bugs, enhancing overall system reliability.
- Collaborated with cross-functional team members to design and deliver features on schedule.

Java Developer Intern — Zoho Corporation

Jun 2025 – Aug 2025

- Supported development of Java applications by writing clean, maintainable code and troubleshooting software issues.
- Assisted in designing, coding, and testing modules to improve application performance and reliability.

Web Development Training — ARFFY Technologies

Feb 2025

- Built mini projects using HTML, CSS, JavaScript, MongoDB, and React.js as part of full stack web developer training.
- Practiced responsive web design, frontend development, and reusable component creation.

PROJECTS

Intelligent Deepfake Detection for Identity Protection (Final Year Project)

2026

- Built a hybrid deep learning model ("DeepGuard") to classify AI-manipulated video media, achieving a 92.5% confidence metric.
- Integrated EfficientNet-B4 (CNN) for spatial artifact detection, Bidirectional LSTMs for temporal irregularity tracking, and Transformer Encoders for long-range context analysis.

SweetCrate — E-Commerce Website

2025

- Engineered a full-stack e-commerce web application with product listing, shopping cart, and checkout functionality.
- Built a responsive, user-friendly interface using React.js, HTML, CSS, and Bootstrap.
- Implemented RESTful APIs using Node.js and Express.js; integrated MongoDB for managing users, products, and orders.

ConnectSphere — Social Media Web Application

2025

- Designed and built a full-stack social media platform using MongoDB, Express.js, React.js, and Node.js with user authentication and post sharing.
- Integrated scalable REST APIs for authentication, post management, and real-time user interactions.

CERTIFICATIONS

- Full Stack Web Developer — ARFFY Technologies
- Web Technologies — Global Quest Technologies

EDUCATION

B.Tech, Information Technology — J.P. College of Engineering, Tenkasi (Anna University)

2022 – 2026

CGPA: 8.4 / 10

HSC — Subbiah Vidyalayam Girls Higher Secondary School

2021 – 2022

Percentage: 75%

SSLC — Subbiah Vidyalayam Girls Higher Secondary School

2019 – 2020

Percentage: 78.8%
